

Simplify. Enable. Innovate

INTERNATIONAL

GyrusAim and International Sector:

International businesses are always on the market for Learning Management Systems that can be accessed by employees from all corners of the world. GyrusAim provides analytics for better worker accountability, the need to demonstrate performance and reward based on merit as well as fostering a continuous learning culture and more efficient knowledge transfer. With our international clientele growing GyrusAim is fulfilling more needs that are required by them to be productive and successful.

How can GyrusAim help your employees?

- Can see their own Individual Development Plans and their training progress.
- Students can take assessments to prove that they have acquired certain skills.
- Students can view their Skills Transcript in order to keep track of skills that need to be obtained.
- Students can enroll or waitlist into classes.
- Students can acquire certifications.

How about your Training Administrators?

- View and print reports for their employees showing training progress and training needs.
- Assess the students knowledge with built in assessments.
- Keep track of students throughout the world by viewing their Individual Development Plans on demand.
- Manage training and development by scheduling, enrolling, and automatic email.

Why Gyrus Systems?

Our international clients use our products because they work for them. Although time zones and countries away, we strive to provide excellent service as well as build and maintain relationships with all of our clients. We understand their challenges and continuously help them with meeting and accomplishing them.

We are aware of the challenges of cultural business practices and make all efforts to respect and satisfy all clients. An additional convenience to our LMS is that it is available as a hosted solution or an installed product behind your firewall.

Key benefits for International organizations:

- Easy to use. Our user-friendly LMS makes online training efficient and effortless.
- Translatable pages from English to most languages.
- Quick response and technical support regardless of location

Key GyrusAim success areas:

- Offering in-state housing solutions for companies with locations throughout the world.
- Security settings to ensure confidence when online
- Web-based LMS meaning workers from any of the company's locations can log on

Gyrus International clients include:

- Jaguar UK
- Land Rover UK
- Kia Motors UK
