

CAPABILITY STATEMENT

Core Competencies

Gyrus Systems provides **Learning Management System (LMS) solutions** designed for **government, military, life sciences, and regulated industries**. With over **35 years of experience**, Gyrus Systems supports compliance, workforce development, and skill readiness with analytics and automation.

- **Enterprise-grade Learning Management System (LMS)** Compliance tracking and training management
- **Security & Compliance:** 508 Accessibility, NIST 800-53 Rev. 5, 21 CFR Part 11, ATO with the Library of Congress, ISO 9001, and ISO 27001
- **Government-Specific Features:** SF-182, EHRI reporting, and role-based access controls
- **Cloud-based & On-Premises Deployment:** Hosted on **Microsoft Azure FedRAMP-approved data centers**
- **Custom Integrations & API Architecture:** Integration with HRIS, ERP, and other government systems
- **Analytics & Reporting:** Insights for tracking training effectiveness and workforce readiness
- **Support for AR/VR Training:** Integration with Warp VR for immersive training experiences
- **Content Library** - Robust courses covering compliance, leadership, safety, HR, and more, enabling fast deployment and ongoing learner engagement
- **Comprehensive Reporting:** Real-time analytics and compliance tracking
- **Prime Vendor & Subcontracting Capabilities** – Ability to support prime contractors as a specialized LMS provider

Differentiators

- **Over 35 Years in LMS Industry:** Proven track record in training and compliance
- **Government & Federal Experience:** Trusted by agencies including the Library of Congress and the U.S. Air Force
- **Scalability & Adaptability:** Supports thousands of users with role-based access and secure training portals
- **High-Security Standards:** Meets NIST, FedRAMP, and ATO security requirements for government clients
- **Transparent and Competitive Pricing:** Clear, upfront pricing that supports easy budgeting and aligns with fiscal responsibility goals

Highlighted Past Performance

- **Library of Congress:** Provided an LMS for nationwide Braille Certification training, ensuring accessibility and compliance from 2018 to now, with a total contract value exceeding \$250k.
- **U.S. Air Force KC-46 with FlightSafety and Northrop Grumman:** Delivered a scalable, integrated training system for Air Force operations for KC46 as sub-prime vendor with FlightSafety from 2016 to present, with a contract value exceeding \$280K.
- **SUBCONTRACT - U.S. Navy VSTS with Carely Corporation:** The Navy leverages the GyrusAim self-hosted LMS to support its Virtual Ship Training Systems (VSTS) for training requirements as sub-prime vendor from 2016 to now, with total contract value of \$90K.
- **SUBCONTRACT - U.S. Navy STIGS with Cubic Corporation:** In the STIGS program, the GyrusAim LMS plays a pivotal role by managing and delivering training content for Navy personnel through an immersive, interactive environment as well as customization for scheduling from 2020 to now with total contract value of \$500K.
